

To Whom It May Concern:

I am writing this letter of reference for JSTL Construction Ltd. with great pleasure.

I have previously hired JSTL Construction Ltd. for 3 projects – two of them in Whistler and one on Hornby Island. My intention is to hire JSTL Construction again as the general contractor to build my new residential house at 7322 Toni Sailer Lane in Whistler, BC.

JSTL Construction Ltd. has an impeccable reputation in the Sea to Sky corridor. I have very appreciated their professional knowledge in the trade and their capacity to manage large and complicated projects. JSTL Construction has a strong capable team and excellent acquaintance of suppliers for the Sea to Sky Corridor. They were able to manage the whole projects and keep all the standards at the highest requested levels. JSTL Construction Ltd. previously worked well with all other contractors.

They provided accurate pre-construction estimates, and were flexible when additional funding sources were brought in at the last minute, with local hire requirements. They also provided solutions to assist in cost savings and that was especially greatly appreciated. I find their administration, organizing and management very competent and effective. Their problem solving skills were excellent.

JSTL Construction Ltd. is best of class in quality control, cost management and job site supervision and I would strongly recommend them to any potential client.

Please feel free to contact me if you have any questions.
